

# EL RING COILNAIL 2,3X50MM CARBON STEEL STANDARD TENSILE

## EL21APBFJ

### APPLICATIONS

Packaging, pallets and crates, underlayment

### TECHNICAL SPECIFICATIONS

|                 |                               |
|-----------------|-------------------------------|
| Collation angle | 16 °                          |
| Wounding type   | Jumbo                         |
| Collation type  | Wire collated                 |
| Wire material   | Carbon steel standard tensile |
| Finish          | Bright basic standard tensile |
| Coating         | Sencoted                      |
| Nail head type  | Full round head               |
| Nail shank type | Ring shank                    |
| Point type      | Diamond                       |
| Nail length     | 50 mm                         |
| Nail diameter   | 2.3 mm                        |

### LOGISTICAL SPECIFICATIONS

|                  |               |
|------------------|---------------|
| GTIN             | 8715274309972 |
| Package quantity | 8000 pieces   |

### CE SPECIFICATIONS

|                                            |                                     |
|--------------------------------------------|-------------------------------------|
| CE fastener type                           | Round cross-section ring shank nail |
| Coating type                               | Coating type 3                      |
| Head cross sectional area                  | 27 mm                               |
| Characteristic yield moment                | 1575 Nmm                            |
| Characteristic head pull through parameter | 22.45 N/mm <sup>2</sup>             |
| Characteristic tensile strength            | 629 N/mm <sup>2</sup>               |
